

Here's what clients have shared:

"Michelle is an inspiring trainer. She shares real-life wisdom with great encouragement. She gave us great tools and helped us personalize these strategies so we could apply our new skills immediately. Thanks, Michelle!"

Dianne Correll, Regional Account Manager
eVantage Financial, CA Insurance Agent

"I have had the pleasure of working with Michelle in several capacities. Always, always Michelle has been an inspirational trainer and a knowledgeable consultant. She knows how to motivate and inspire. She is professional, full of positive energetic and a terrific resource."

Jacqueline Morissette Olivier
Founder & Owner, Moxxie Essentials

"Michelle has a keen mind with rich background experiences to draw from, utilizes a focused approach to keep the creative juices flowing, and provides down-to-earth advice, while assessing the individual's potential for growth and improvement. Additionally, John Maxwell's practices and laws of leadership are highlighted throughout the foundation of what we are building on through character, courage and commitment. I highly recommend Michelle Beauchamp and The Champ Group to maximize the personal and/or professional growth of you and your team and achieve business growth."

Kari E. Buist Baker
Founder and CEO of Senior Life Management, Inc.

"As the leader of a medical facility that is rather demanding with changing priorities throughout the day, I do not always have time to consider whether I handle situations the right way. When I attend the

Group, it allows me to learn about new ideas on building my team, working more effectively with my board, and even being a better father and husband. Reflection and Growth is what I receive. I sure enjoy the examples other Mastermind Group members share on how they handle situations. The meeting environment is comfortable, based on trust and conducive to sharing. It's a wonderful investment of my time."

Roderick Seamster, President & CEO
Watts Healthcare Corporation

"The Mastermind Group that Michelle Beauchamp facilitates is always inspiring. Although I've been a business owner for several years, I have reflected on how I can become an even more effective leader. The impact: more effective interaction with my team. I understand what motivates them; I'm a better listener, and have been able to show them how much I care about them. I sure enjoy the Mastermind Group members and when my travel schedule keeps me away, I certainly miss them."

Linda Kang, Owner, Korel Tiles
